Dear Public Service Commission

I come before you to request a revocation of the Certificate of Public Conveyance granted to me.

I was not successful in starting a Taxi service. I set the business up, and the taxi, lacking only the installation of the meter and then approval from the local townships in Charleston after inspection of the Taxi. I ran into great difficulties, finding someone to install the meter for me. It took a couple of months to find an installer and then due to their schedule and business difficulties, a couple of months for them to install it for me. Then it was finally installed, and I drove down the road not even 5 minutes and a deer ran out in front of my vehicle. I struck the deer and the vehicle was totaled. In the face of so much difficulty, I was disheartened and ceased my endeavours for a while, thinking I would know whether to proceed again in the future.

There were other pressing matters, time passed, and the Certificate of Public Convenience granted to me was never utilized.

I request that you revoke certificate 9467.

I apologize for any convenience caused to the Public Service Commission, by me taking time to decide whether to proceed again in this endeavour. I will commence the official dismantling of Frogtown Taxi and Frogtown Enterprises officially in the coming year.

I also refer you to Docket No. 2021-71-T

Please respond to this email : [Lillybrae1@gmail.com](mailto:Lillybrae1@gmail.com) rather than the one you have in your records; [frogtowntaxi@gmail.com](mailto:frogtowntaxi@gmail.com). Thank you.

Sincerely,  
Marian Cummings  
Owner of Frogtown Enterprises, LLC dba Frogtown Taxi
